

AUTODESK® PLANT DESIGN SUITE

INTEGRATED SOLUTIONS FOR PLANT DESIGN AND WHOLE-PROJECT REVIEW

The suite combines AutoCAD®, AutoCAD P&ID®, AutoCAD Plant 3D®, and Autodesk Navisworks® software in a single integrated plant design solution. This solution helps streamline 2D drafting, P&ID design, 3D modeling, construction document generation, and project review process.

REASONS TO SWITCH FROM CADWORX® PLANT DESIGN SUITE TO AUTODESK PLANT DESIGN SUITE

1. One suite from the company that built AutoCAD.
2. Combines nearly everything you need in a single integrated plant design solution: AutoCAD, Intelligent P&ID, pipe routing, drawings, content libraries, and visual project coordination.
3. Strong, stable developer – Autodesk, Inc.
4. Easy to deploy and use. Based on standard Autodesk command structure; your people may already be trained in most facets of the system.
5. Low cost of entry. The Suite is a simple upgrade from existing AutoCAD.
6. Great capacity without the need for complicated project database set-up.
7. Intelligent P&IDs may be seamlessly integrated into the plant design environment.
8. Modern 3D plant modeling that helps simplify the design of your everyday plant design projects.
9. Easy access to the many formats used in design and construction through Autodesk Navisworks – widely-used real-time visualization tool.
10. Well integrated with multi-discipline solutions for Architecture, Civil, Electrical, Mechanical, and Structural Design.
